Specific details relating to Item No. 7

While the Company had a very good track record of healthy profits continuously for many years, the Company made inadequate profits in the financial year 2013-14, and even the minimum remuneration, as aforesaid, paid to the Managing Director exceeded 5% of the net profit computed in the manner as described under Section 198 read with Sections 349 and 350 of the Companies Act, 1956, for the relevant year. In view of the above, the Company made an application to the Central Government for waiver of recovery of excess remuneration, as detailed in the proposed resolution at Item No. 7 of the accompanying Notice. However, the Company's application was declined inter-alia for the reason that the Company did not furnish members' special resolution in favor of the proposal. In response thereto, the Company has represented to approach the Central Government after obtaining the shareholders' consent by means of a special resolution.

In the above backdrop, shareholders' approval is sought by way of a special resolution to the aforesaid proposal so that a representation and / or fresh application may be moved to the Central Government seeking requisite approvals.

Accordingly, a special resolution is proposed at Item No. 7 of the accompanying Notice proposing the waiver of recovery of excess remuneration paid to the Managing Director for the financial year 2013-14, as detailed therein, in pursuance of the applicable provisions of the Companies Act, 1956 and / or the Act.

The Company incurred heavy loss during the financial year 2014-15, the financial statements of which are being placed before the shareholders for approval. In view of the above, even the salary and perquisites paid by the Company to the Managing Director as minimum remuneration, in terms of the resolution passed originally, exceeded the limits specified under Part A of Section II of Part II of Schedule V to the Act. Consequently, shareholders' approval is sought by means of a special resolution for the remuneration paid to Mr. Jatia for the financial year 2014-15, as also for the waiver of recovery of the resultant excess remuneration in terms of the aforesaid provisions of Schedule V to the Act, as detailed in the proposed resolution at Item No. 8 of the accompanying Notice.

Accordingly, a special resolution is proposed at Item No. 8 of the accompanying Notice proposing the waiver of recovery of excess remuneration paid to the Managing Director for the financial year 2014-15.

Specific details relating to Item No. 9

In terms of the original resolution passed by the shareholders in the 29th Annual General Meeting of the Company held on 28th September, 2010, the Nomination and Remuneration Committee and the Board of Directors of the Company have, subject to approval of the shareholders and the Central Government, decided to pay the remuneration, as detailed in the proposed resolution at Item No. 9 of the accompanying Notice, to Mr. Shiv Kumar Jatia, Managing Director for the financial year 2015-16. The proposed remuneration, in case of absence or inadequacy of profit, may exceed the limits specified under Part A of Section II of Part II of Schedule V to the Act, and consequently, shareholders' approval is sought by means of a special resolution for the payment of the said remuneration subject to approval of the Central Government.

Accordingly, a special resolution is proposed at Item No. 9 of the accompanying Notice for payment of remuneration to the Managing Director for the financial year 2015-16, as detailed therein.

ASIAN HOTELS (NORTH) LIMITED

Accordingly, a special resolution is proposed at Item No. 10 of the accompanying Notice for re-appointment and payment of remuneration to Mr. Jatia in pursuance of Sections 196, 197, 198 and other applicable provisions including Para A of Section II of Part II of Schedule V to the Act.

Your directors are of the opinion that it will be in the Company's interest to approve the aforesaid resolutions as the remuneration paid / proposed to be paid to Mr. Jatia is commensurate with the responsibilities shouldered by him and his continued association with the Company will provide continuity of leadership at the challenging times now being faced by the Company, and therefore, recommend to the shareholders to approve the resolutions at Item Nos. 7 to 10 of the accompanying Notice.

Item No. 11

In May 2015, the Company made a contribution to the Prime Minister's National Relief Fund for providing assistance to the victims of Nepal earthquake on the premise that it will be a contribution which may be covered under the CSR activities / expenditure for the financial year 2015-16. However, when the results for the financial year 2014-15 were finalized on 28th May, 2015, the Company realized that the loss incurred during the said year was more than the aggregate profit of the previous two financial years and the average net profit for the relevant three years for calculating CSR contribution for 2015-16 was negative. More-over, the Company had no scope even for making any charitable contribution under Section 181 of the Act. In view of the above, we are constrained to seek shareholders approval under Section 181 of the Act for regularizing the aforesaid contribution as contribution made towards charitable cause.

In the normal course of business, the Company may be required to make small donations for charitable, religious or other bona fide causes. The proposed resolution should enable the Company to make such bona-fide and charitable contributions in future even if the Company has inadequate profit or loss in a given year.

In view of the above, the Company seeks shareholders approval for the proposed resolution at Item No. 11 of the accompanying Notice.

None of the directors and key managerial personnel of the Company or their respective relatives is concerned or interested either financially or otherwise in the respective resolution at Item No. 11 of the accompanying Notice.

Despite marginal decrease in the room revenue, total net revenue from operations for the financial year 2014-15 was Rs. 232.49 crore as against Rs. 227.76 crore in the prior year, a marginal increase of 2%. Though the average room rate during the year under review was a shade better than the prior year, the room revenue declined primarily due to lower occupancy levels.

Revenue from Food & Beverage in the year under review registered a moderate increase of 7% over the prior year. The new banquet facility namely, "The Mansion" became operational from August 2014, and is now a much sought-after event venue. Your Directors expect it to bring in more revenue and give a fillip not only to revenue from Food & Beverage but will also have a positive impact on room occupancy because of conventions and meetings and will thus improve the overall revenue.

Other income during the year under review was Rs. 30.95 crore (prior year Rs. 65.14 crore) which included gain on foreign currency transactions and translation (other than considered as finance cost) of Rs. 2.27 crore (prior year Rs. 26.16 crore); net gain on sale of fixed assets of Rs. 24.75 crore (prior year Rs. 26.83 crore) and total interest income of Rs. 2.35 crore (prior year Rs. 9.98 crore).

Your Directors would like to inform that the six acre plot of land acquired by the Company for constructing a hotel with permissible commercial space in New Town, Kolkata has been sold in July 2015, as it was considered not viable to develop the said property given the current economic scenario and the Company's liquidity position.

Transfer to Reserves / Dividend

In view of the loss suffered by the Company, your Directors are constrained not to recommend any dividend for the year under review.

Further, no amount has been transferred to the General Reserve. However, an addition of Rs. 86.77 lac to the General Reserve during the year under review is because of deduction of the like amount from Revaluation Reserve, being the amount withdrawn on account of depreciation on the increased amount of assets due to revaluation, that has been credited to the General Reserve based on the guidance provided by "Application Guide on the Provisions of Schedule II to the Companies Act, 2013" issued by the Institute of Chartered Accountants of India.

Material changes and commitments affecting the financial position of the Company

Your Directors would like to inform that no material changes and commitments have occurred between the end of the financial year under review and the date of this report that may adversely affect the financial position of the Company.

MANAGEMENT DISCUSSION AND ANALYSIS

Pursuant to Clause 49 of the Listing Agreement, the Management Discussion and Analysis Report is given below:

Industry Structure & Developments and Opportunities & Outlook

There is considerable evidence from other economies – Britain under Margaret Thatcher, Indonesia after the East Asian crisis and India after the 1991 reforms – which suggests that structural reform hurts an economy in the initial years before the economy takes off. India is at the beginning of the economic pain, as the resets engineered by the Current Government result in a downturn in real estate and rural India. Market sources are of the firm opinion that GDP growth estimate for financial year 2015-16 would be 7% as against 7.3% clocked for the financial year 2014-15. International business travel remains luke warm. Domestic tourism, however, has seen a growth, though not in the Five star hotel segment. It is expected that with economy improving in the US & Europe, international travel, into India, both for tourism and business should show a further increase in the coming fiscal.

Threats, Risks and Concerns

With the change in the Central Government, it was anticipated that the economy would achieve the GDP growth of 8%. However, the expected target seems to have been missed, and a growth rate of approx. 7% is expected in the current financial year and the next one. New legislations, important for the programme of reforms envisaged by the new Government, are being continuously delayed due to disruptive parliamentary sessions. This uncertainty is causing delay in foreign investment coming to the country, thereby, affecting international business travel. Going forward supply in Delhi is expected to see an addition of approx. 4000 new hotel rooms over the next five years. New hotels are expected to put pressure on Average Room Rates with supply increasing in the luxury and upper scale segments by almost 20%.

Review of Operational and Financial performance

The Company achieved aggregate revenue of Rs. 232.49 crore from operations for the year ended 31st March, 2015. The said revenue in the prior year was Rs. 227.76 crore.

It has in place adequate reporting systems in respect of financial performance, operational efficiencies and reporting with respect to compliance of various statutory and regulatory matters. As detailed above, the Internal Auditors have regularly conducted exhaustive internal audits pertaining to different operational areas and their reports were periodically placed before the Sub-Committee on Internal Audit, which reported its findings / observations to the Audit Committee. NOTES ANNEXED TO AND FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2015

1. Corporate information

Asian Hotels (North) Limited ("the Company") is a public limited company domiciled in India and is listed on the National Stock Exchange (NSE) and the Bombay Stock Exchange (BSE). The Company is operating a Five Star Deluxe Hotel, namely Hyatt Regency in Delhi since 1982.

2. Significant accounting policies

a) Basis of preparation

These financial statements have been prepared to comply in all material aspects with the Accounting Standards specified under Section 133 of the Companies Act, 2013 ("the Act"), read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified) and other accounting principles generally accepted in India, to the extent applicable. These financial statements have been prepared under the historical cost convention on accrual basis. The accounting policies have been consistently applied by the Company and are consistent with those used in the previous year.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Act. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purposes of current / non-current classification of assets and liabilities.

b) Use of Estimates

The preparation of these financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

c) Fixed assets, depreciation/amortisation and Capital Work-in-progress

(i) Fixed assets are stated at cost of acquisition or construction or at revalued amounts, net of impairment loss, if any, less depreciation/amortisation. Costs include financing costs of borrowed funds attributable to acquisition or construction of fixed assets, up to the date the assets are put to use. Assessment of indication of impairment of an asset is made at the year end and impairment loss, if any, recognised. The Company adjusts exchange differences arising on translation/settlement of long-term foreign currency monetary items pertaining to the acquisition of depreciable assets to the cost of the asset and depreciates the same over the remaining life of the asset.

(ii) Depreciation on Tangible Fixed Assets:

- (a) Depreciation as per straight line method has been charged in the accounts based on expected useful life as specified under Schedule II of the Act.
- (b) Depreciation on leasehold improvements is being charged equally over the period of the lease.
- (c) Depreciation on the increased amount of assets due to revaluation is computed on the basis of residual life of the assets as estimated by the valuer on straight line method and charged to Revaluation Reserve and credited to the General Reserve based on guidance provided by "Application Guide on the Provisions of Schedule II to the Companies Act, 2013" issued by the Institute of Chartered Accountants of India.
- (d) No depreciation is charged on the assets sold/discarded during the year.

(iii) Amortization of Intangible Fixed Assets:

Intangible fixed assets are amortized on straight line basis over their estimated useful economic life.

(iv) Capital Work-in-progress:

Tangible assets not ready for intended use on the date of Balance Sheet are disclosed as "Capital Work-in-progress." Capital work-in-progress represents directly attributable costs of construction to be capitalized. All other expenses including interest incurred during construction period to be capitalized as part of construction cost to the extent to which these expenditures are specifically attributable to the construction. Interest income earned on temporary investment of funds brought in for the project during construction period has been set off from the interest expense accounted for as expenditure during the construction period.

d) Impairment

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the Company measures it on the basis of discounted cash flows of next five years projections estimated based on current prices. Assessment is also done at each Balance Sheet date as to whether there is any indication that an impairment loss recognized for an asset in prior accounting periods may no longer exist or may have decreased.

In respect of the assets at the subsidiary at each balance sheet date the impairment testing is based on the realizable value of underlying assets as tested by the Board of Directors of the subsidiary.

ASIAN HOTELS (NORTH) LIMITED

NOTES ANNEXED TO AND FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2015

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

e) **Foreign Currency Transactions**

Initial Recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of transaction.

Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items, which are measured in terms of historical costs denominated in foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

Exchange Differences

Exchange differences arising on the settlement of monetary items or on reporting Company's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements including receivables and payables which are likely to be settled in foreseeable future, are recognized as income or as expenses in the year in which they arise.

For exchange differences arising on certain long-term foreign currency monetary items, refer to note 2c) above on tangible fixed assets.

All other exchange differences are recognized as income or as expenses in the period in which they arise.

f) **Revenue recognition**

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Specifically,

- (i) Revenue from rendering of hospitality services is recognized when the related services are performed and billed to the customer.
- (ii) Interest income is recognized on time proportion basis taking into account the amount outstanding and the rate applicable.
- (iii) Dividend income from investments is recognized when the Company's right to receive payment is established.
- (iv) Income from generation of electricity is recognized when the actual generated units are transferred and billed to the buyer.
- (v) Income from hiring of vehicles is recognized on accrual basis on the basis of agreed rate.

g) **Investments**

Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as non-current investments. Current investments are valued at lower of cost and fair value determined on an individual investment basis. Changes in the carrying amount of current investments are recognized in the statement of profit and loss. Non-current investments are valued at cost. However, provision for diminution in value is made to recognize a decline that is other than temporary in the value of investments, wherever considered necessary. Cost comprises cost of acquisition and related expenses such as brokerage and stamp duties.

h) **Inventories**

Inventories are valued at the lower of cost or net realizable value. The cost is determined by weighted average method. The net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and estimated costs necessary to make the sale.

Operating equipment in circulation is valued at weighted average cost less estimated diminution in value on account of usage.

i) **Retirement benefits**

Retirement benefit costs for the year are determined on the following basis:

- (i) All employees are covered under contributory provident fund benefit of a contribution of 12% of salary. It is a defined contribution scheme and the contribution is charged to the statement of profit and loss of the year when the contribution to the respective fund is due. There is no obligation other than the contribution payable to the respective fund.
- (ii) The Company also provides for retirement benefits in the form of gratuity and compensated absences/ Leave encashment in pursuance of the Company leave rules. The Company's liability towards such defined benefit plans are determined based on valuations as at the Balance Sheet date made by independent actuaries. All actuarial gains/losses arising during the accounting year are recognized immediately in the statement of profit and loss as income or expense. The classification of the Company's net obligation into current and non-current is as per the actuarial valuation report.

j) **Income and Deferred Taxes**

Tax expense comprises current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 and tax laws prevailing in the respective tax jurisdictions where the Company operates.

ASIAN HOTELS (NORTH) LIMITED

NOTES ANNEXED TO AND FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2015

Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted at the balance sheet date.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax asset on unabsorbed depreciation and carry forward losses is recognized only to the extent that there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

At each balance sheet date, the Company reassesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Minimum Alternate Tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The Company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e. the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement". The Company reviews the "MAT Credit Entitlement" asset at each reporting date and writes it down to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period and utilize the MAT Credit Entitlement.

k) Borrowing costs

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

l) Earnings per equity share

Basic earnings per equity share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares is adjusted for events such as bonus issue and shares split that have changed the number of equity shares outstanding without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares, if any.

m) Provisions

A provision is recognized when an enterprise has a present obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reasonable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

n) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is probable that an outflow of resources will be required to settle the obligations. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

o) Cash and Cash Equivalents

Cash and cash equivalents comprise cash at bank and cash/cheques on hand and short-term deposits with banks with an original maturity of not more than three months.

p). Measurement of EBITDA

The Company has elected to present earnings before interest, tax, depreciation and amortization (EBITDA) as a separate line item on the face of the statement of profit and loss. In its measurement, the Company does not include depreciation and amortization expense, finance costs and tax expense.

q). Operating Leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. The Company is both a lessee and a lessor under such arrangements. Payments and receipts under such leases are charged or credited to the Statement of Profit and Loss on a straight line basis over the primary period of the lease unless another systematic basis is more representative of the time pattern of the user's benefit.

(b) Income tax demand/ liabilities not provided for*	85.79	74.48
* includes income tax demand of Rs. 5.53 Lakhs (Previous Year Rs. 21.13 Lakhs)		
* includes contingent liability of Rs. 80.26 Lakhs (Previous Year Rs. 53.35 Lakhs) on account of taxes as are required to be withheld by the Company, as per the latest order of Assessing Officer from the payment to a foreign service provider. However, during the earlier years the Company was getting Nil withholding tax order for the same. The Company has gone into appeal with appropriate authorities against this order. As per the agreement with the foreign service provider the payments to be made to him shall be without any deduction of taxes, however, if there are any withholding taxes the same are to be borne by the Company. Confident of getting a Nil withholding tax order, the Company has not provided for the amount.		
(c) Service tax demand not provided for*	401.10	401.10
* includes demand raised by Service Tax Authorities amounting to Rs. 401.10 Lakhs (Previous Year Rs. 401.10 Lakhs) including penalty demand of Rs. 250.00 Lakhs and excluding interest for earlier years up to 2007, against which the Company has filed an appeal with Customs, Excise and Service Tax Appellate Tribunal, New Delhi on 11 th March, 2014. The Company is contesting to have already paid the determined balance liability without penalty before the issuance of show cause notice by Service Tax Authorities. Hence, the Company may not be liable to pay any demand and penalty. Further, the Company is examining in detail certain transactions for applicability of service tax and will recognise and deposit the same if applicable on completion of such determination.		
(d) The Federation of Hotels & Restaurants Association of India (FHRAI) and the Company had filed a writ petition in the High Court of Delhi against the "Unit Area Scheme", the new method for payment of property tax introduced by Municipal Corporation of Delhi (MCD) w.e.f. 1 st April, 2004. In terms of the interim order dated 10 th September, 2004, passed by the Hon'ble High Court of Delhi in the said matter, the Company has, so far, been paying a sum of Rs. 54.52 Lakhs per annum based on the Rateable Value Method, existing prior to the new method. In a subsequent development, vide order dated 23 rd May, 2014, the Hon'ble High Court directed the petitioners to pay the property tax based on user factor of 4 and the rate of tax at 10% of the annual value, including all arrears, till the final adjudication of the matter. However, as a matter of abundant caution, the Company has provided for the property tax under the "Unit Area Scheme" based on the user factor of 10 and the rate of tax at 10% of the annual value up to Financial Year 2009-10 and 20% for the subsequent financial years. Such provision appears as expense under Rates and Taxes (Other Expenses) including for earlier years amounting to Rs. 1,417.12 Lakhs.		
(e) Relating to an accident in the hotel Hyatt Regency Delhi premises, a writ petition has been filed with Delhi High Court by a relative of the injured person, the Company has been made one of the respondents. Any consequence on the outcome of the case can not be ascertained.

30 EMPLOYEE BENEFITS

The Company has classified the various benefits provided to employees as under:-

(a) Defined contribution plans

- Provident fund

The Company has recognized the following amounts in the statement of profit and loss:

Employers' contribution to provident fund :- Current Year Rs. 193.33 Lakhs (Previous Year Rs. 205.37 Lakhs)

(b) Defined benefit plans

- Compensated absences - Earned leave

In accordance with Accounting Standard-15 (revised 2005), actuarial valuation was done in respect of the aforesaid defined benefit plans based on the following assumptions-

ASIAN HOTELS (NORTH) LIMITED

NOTES ANNEXED TO AND FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2015

Economic Assumptions

The discount rate and salary increases assumed are the key financial assumptions and should be considered together; it is the difference or 'gap' between these rates which is more important than the individual rates in isolation.

Discount Rate

The discounting rate is based on the gross redemption yield on medium to long-term risk free investments. The estimated term of the benefits/obligations works out to zero years. For the current valuation a discount rate of 8.50% p.a. (Previous Year 8.50% p.a.) compound has been used.

Salary Escalation Rate

The salary escalation rate usually consists of at least three components, viz. regular increments, price inflation and promotional increases. In addition to this, any commitments by the management regarding future salary increases and the Company's philosophy towards employee remuneration are also to be taken into account. Again a long-term view as to trend in salary increase rates has to be taken rather than be guided by the escalation rates experienced in the immediate past, if they have been influenced by unusual factors.

The assumptions used are summarised in the following table:

These consolidated financial statements have been prepared to comply in all material aspects with the Accounting Standards specified under Section 133 of the Companies Act, 2013 ("the Act") read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified) and other accounting principles generally accepted in India, to the extent applicable. These consolidated financial statements have been prepared under the historical cost convention on accrual basis. The accounting policies have been consistently applied by the Group and are consistent with those used in the previous year.

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria set out in the Schedule III to the Act. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purposes of current / non-current classification of assets and liabilities.

b). Principles of Consolidation

These consolidated financial statements have been prepared in accordance with Accounting Standard (AS)-21 on "Consolidated Financial Statements". These consolidated financial statements comprise the financial statements of the Company and its following subsidiaries: -

Name of the Company	Country of Incorporation	Effective % of holding as at 31 st March 2015	Effective % of holding as at 31 st March 2014
Fineline Hospitality & Consultancy Pte Ltd (FHCPL)- an Overseas Subsidiary	Mauritius	100.00%	100.00%
Lexon Hotel Ventures Limited (Lexon), a subsidiary of FHCPL	Mauritius	80.00%(#)	80.00%(#)

(^) i.e. 80.00% of 99.76% held by Lexon

These consolidated financial statements have been prepared on the following basis:

- (i) The financial statements of the Holding Company, its Overseas Wholly Owned Subsidiary, its Overseas Subsidiary and its Indian Subsidiary have been combined on a line by line basis by adding together the book value of like items of assets, liabilities, income and expenses after fully eliminating intra-group balances and intra-group transactions, if any, based on the special purpose audited consolidated financial statements received from the Overseas Subsidiary and audited financial statement received from the Indian Subsidiary for the year ended 31st March, 2015, in Indian Rupees as per the Indian Accepted Accounting Policies.
- (ii) These consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented, to the extent possible, in the same manner as the Company's standalone financial statements.
- (iii) The difference between the cost of investment in the subsidiaries and the Holding Company's share of net assets at the time of acquisition of shares in the subsidiaries is recognized in the consolidated financial statements as Goodwill or Capital Reserve as the case may be.
- (iv) Goodwill arising out of consolidation is tested for impairment at each balance sheet date.
- (v) Minority Interest in the net assets of consolidated subsidiaries is identified and presented in the consolidated Balance Sheet separately from liabilities and equity of the Holding Company's shareholders.

Minority interest in the net assets of consolidated subsidiaries consists of :-

- (a) the amount of equity attributable to the minorities at the date on which investment in Subsidiary is made; and
- (b) the minorities' share of movements in equity since the date the parent – subsidiary relationship came into existence.

ASIAN HOTELS (NORTH) LIMITED

NOTES ANNEXED TO AND FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2015

Minority interest's share of Net Profit / (Loss) (including share of Foreign Exchange Translation Reserve) of consolidated subsidiaries for the relevant period is identified and adjusted against the profit after tax of the group.

c). Use of Estimates

The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the consolidated financial statements and the results of operations during the reporting period end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

d). Fixed assets, depreciation/amortisation and Capital Work-in-progress

(i) Fixed assets are stated at cost of acquisition or construction or at revalued amounts, net of impairment loss, if any, less depreciation/amortisation. Costs include financing costs of borrowed funds attributable to acquisition or construction of fixed assets, up to the date the assets are put to use. Assessment of indication of impairment of an asset is made at the year end and impairment loss, if any, recognised. The Group adjusts exchange differences arising on translation/settlement of long-term foreign currency monetary items pertaining to the acquisition of depreciable assets to the cost of the asset and depreciates the same over the remaining life of the asset.

(ii) Depreciation on Tangible Fixed Assets:

(a) Depreciation as per straight line method has been charged in the accounts based on expected useful life as specified under Schedule II of the Act.

(b) Depreciation on leasehold improvements is being charged equally over the period of the lease.

(c) Depreciation on the increased amount of assets due to revaluation is computed on the basis of residual life of the assets as estimated by the valuer on straight line method and charged to Revaluation Reserve and credited to the General Reserve based on guidance provided by "Application Guide on the Provisions of Schedule II to the Companies Act, 2013" issued by the Institute of Chartered Accountants of India.

(d) No depreciation is charged on the assets sold/discarded during the year.

(iii) Amortization of Intangible Fixed Assets:

Intangible fixed assets are amortized on straight line basis over their estimated useful economic life.

(iv) Capital Work-in-progress:

Tangible assets not ready for intended use on the date of Balance Sheet are disclosed as "Capital Work-in-Progress." Capital work- in- progress represents directly attributable costs of construction to be capitalized. All other expenses including interest incurred during construction period to be capitalized as part of construction cost to the extent to which these expenditures are specifically attributable to the construction. Interest income earned on temporary investment of funds brought in for the project during construction period has been set off from the interest expense accounted for as expenditure during the construction period.

e). Impairment

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the Group measures it on the basis of discounted cash flows of next five years projections estimated based on current prices.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

f). Foreign Currency Transactions

Initial Recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of transaction.

Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items, which are measured in terms of historical costs denominated in foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

Exchange Differences

Exchange differences arising on the settlement of monetary items or on reporting company's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous consolidated financial statements

ASIAN HOTELS (NORTH) LIMITED

NOTES ANNEXED TO AND FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2015

including receivables and payables which are likely to be settled in foreseeable future, are recognised as income or as expenses in the year in which they arise.

For exchange differences arising on certain long- term foreign currency monetary items, refer to note 2d above on tangible fixed assets.

Foreign Subsidiaries

All the activities of the foreign subsidiaries are carried out with a significant degree of autonomy from those of the parent. Accordingly, as per the provisions of Accounting Standard (AS) - 11 on "Effect of changes in foreign exchange rates", these operations have been classified as "Non-integral operations" and therefore all the assets and liabilities, both monetary and non-monetary, are translated at the closing rates while income and expenses are translated at the average exchange rates. The resulting exchange differences are accumulated in the foreign currency translation reserve account until the disposal of net investment.

All other exchange differences are recognized as income or as expenses in the period in which they arise.

g). Revenue recognition

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Specifically,

- (i) Revenue from rendering of hospitality services and offshore project consultancy services is recognized when the related services are performed and billed to the customer.
- (ii) Interest income is recognized on time proportion basis taking into account the amount outstanding and the rate applicable.
- (iii) Dividend income from investments is recognized when the Group's right to receive payment is established.
- (iv) Income from generation of electricity is recognized when the actual generated units are transferred and billed to the buyer.
- (v) Income from hiring of vehicles is recognized on accrual basis on the basis of agreed rate.

h). Investments

Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as non-current investments. Current investments are valued at lower of cost and fair value determined on an individual investment basis. Changes in the carrying amount of current investments are recognized in the statement of profit and loss. Non-Current investments are valued at cost. However, provision for diminution in value is made to recognize a decline that is other than temporary in the value of investments, wherever considered necessary. Cost comprises cost of acquisition and related expenses such as brokerage and stamp duties.

i). Inventories

Inventories are valued at the lower of cost or net realizable value. The cost is determined by weighted average method. The net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and estimated costs necessary to make the sale.

Operating equipment in circulation is valued at weighted average cost less estimated diminution in value on account of usage.

j). Retirement benefits

Retirement benefit costs for the year are determined on the following basis:

- (i) All employees are covered under contributory provident fund benefit of a contribution of 12% of salary. It is a defined contribution scheme and the contribution is charged to the statement of profit and loss of the year when the contribution to the respective fund is due. There is no obligation other than the contribution payable to the respective fund.
- (ii) The Group also provides for retirement benefits in the form of gratuity and compensated absences/leave encashment in pursuance of the Group leave rules. The Group's liability towards such defined benefit plans are determined based on valuations as at the Balance Sheet date made by independent actuaries. All actuarial gains/losses arising during the accounting year are recognized immediately in the statement of profit and loss as income or expense. The classification of the Group's net obligation into current and non-current is as per the actuarial valuation report.

k). Income and Deferred Taxes

Tax expense comprises current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities and tax laws prevailing in the respective tax jurisdictions.

Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted at the balance sheet date.

ASIAN HOTELS (NORTH) LIMITED

NOTES ANNEXED TO AND FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2015

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax asset on unabsorbed depreciation and carry forward losses is recognized only to the extent that there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

At each balance sheet date, the Group reassesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Minimum Alternate Tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The Group recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Group will pay normal income tax during the specified period, i.e. the period for which MAT credit is allowed to be carried forward. In the year in which the Group recognizes MAT credit as an asset, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement". The Group reviews the "MAT Credit Entitlement" asset at each reporting date and writes it down to the extent the Group does not have convincing evidence that it will pay normal tax during the specified period and utilize the MAT Credit Entitlement.

l). Borrowing costs

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

m). Earnings per equity share

Basic earning per equity share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares is adjusted for events such as bonus issue and shares split that have changed the number of equity shares outstanding without a corresponding change in resources.

For the purpose of calculating diluted earning per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

n). Provisions

A provision is recognized when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a realizable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

o). Cash and Cash Equivalents

Cash and cash equivalents comprise cash at bank and cash/cheques on hand and short-term deposits with Banks with an original maturity of three months.

p). Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is probable that an outflow of resources will be required to settle the obligations. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the consolidated financial statements.

q). Measurement of EBITDA

The Group has elected to present earnings before interest, tax, depreciation and amortization (EBITDA) as a separate line item on the face of the statement of profit and loss. In its measurement, the Group does not include depreciation and amortization expense, finance costs and tax expense.

r). Operating Leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. The Group is both a lessee and a lessor under such arrangements. Payments and receipts under such leases are charged or credited to the Statement of Profit and Loss on a straight line basis over the primary period of the lease unless another systematic basis is more representative of the time pattern of the user's benefit.

(c) Service tax demand not provided for* 401.10 401.10

* includes demand raised by Service Tax Authorities amounting to Rs. 401.10 Lakhs (Previous Year Rs. 401.10 Lakhs) including penalty demand of Rs. 250.00 Lakhs and excluding interest for earlier years up to 2007, against which the Holding Company has filed an appeal with Customs, Excise and Service Tax Appellate Tribunal, New Delhi on 11th March, 2014. The Holding Company is contesting to have already paid the determined balance liability without penalty before the issuance of show cause notice by Service Tax Authorities. Hence, the Holding Company may not be liable to pay any demand and penalty. Further, the Holding Company is examining in detail certain transactions for applicability of service tax and will recognise and deposit the same if applicable on completion of such determination.

(d) The Federation of Hotels & Restaurants Association of India (FHRAI) and the Holding Company had filed a writ petition in the High Court of Delhi against the "Unit Area Scheme", the new method for payment of property tax introduced by Municipal Corporation of Delhi (MCD) w.e.f. 1st April, 2004. In terms of the interim order dated 10th September, 2004, passed by the Hon'ble High Court of Delhi in the said matter, the Holding Company has, so far, been paying a sum of Rs. 54.52 Lakhs per annum based on the Rateable Value Method, existing prior to the new method. In a subsequent development, vide order dated 23rd May, 2014, the Hon'ble High Court directed the petitioners to pay the property tax based on user factor of 4 and the rate of tax at 10% of the annual value, including all arrears, till the final adjudication of the matter. However, as a matter of abundant caution, the Holding Company has provided for the property tax under the "Unit Area Scheme" based on the user factor of 10 and the rate of tax at 10% of the annual value up to financial year 2009-10 and 20% for the subsequent financial years. Such provision appears as expense under Rates and Taxes (Other Expenses) including for earlier years amounting to Rs. 1,417.12 Lakhs.

(e) Income Tax Department has raised a demand on Leading of Rs. 156.43 Lakhs (including interest but excluding penalties thereon) in respect of non-deduction of tax at source on amounts remitted to foreign entities/ non-resident person on account of technical services payments. The Leading has appealed against the said order, which is pending adjudication. However, as a matter of abundant caution, the Group has provided for the same.

(f) Relating to an accident in the hotel Hyatt Regency Delhi premises, a writ petition has been filed with Delhi High Court by a relative of the injured person, the Holding Company has been made one of the respondents. Any consequence on the outcome of the case can not be ascertained.

(g) Petitions have been filed against the grant of Environmental and Costal Regulation Zone clearances to the Leading's project at Goa with the National Green Tribunal, which are being contested by Leading. The management of Leading is confident of it being able to successfully get the petitions quashed and retain its clearances which are essential for the completion of its project.

(h) Several legal disputes, including a Public Interest Litigation have been initiated by the owners and/or tenants of the land acquired by Leading for its project at Goa and others over the Leading's right, process of acquisition of land and compliance with the provisions of Tenancy Act, which are pending adjudication at various forums including at District and High Courts. Based on legal advice and outcome of similar cases in the past, the management of Leading is hopeful of favourable outcomes and does not foresee them to have any material impact on the progress of its project.

NOTES ANNEXED TO AND FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2015

- Compensated absences - Earned leave

In accordance with Accounting Standard-15 (revised 2005), actuarial valuation was done in respect of the aforesaid defined benefit plans based on the following assumptions-

Economic Assumptions

The discount rate and salary increases assumed are the key financial assumptions and should be considered together; it is the difference or 'gap' between these rates which is more important than the individual rates in isolation.

Discount Rate

The discounting rate is based on the gross redemption yield on medium to long-term risk free investments. The estimated term of the benefits/obligations works out to zero years. For the current valuation a discount rate of 8.50% per annum (Previous Year 8.00% per annum) compound, has been used.

Salary Escalation Rate

The salary escalation rate usually consists of at least three components, viz. regular increments, price inflation and promotional increases. In addition to this, any commitments by the management regarding future salary increases and the Group's philosophy towards employee remuneration are also to be taken into account. Again a long-term view as to trend in salary increase rates has to be taken rather than be guided by the escalation rates experienced in the immediate past, if they have been influenced by unusual factors.

The assumptions used are summarised in the following table:

33 OTHER NOTES

- Due to inadequacy of profit in the Financial Year 2013-14, the minimum remuneration paid by the Holding Company to Mr. Shiv Kumar Jatia as Managing Director in terms of the shareholders' ordinary resolution dated 28th September, 2010, was in excess by an amount of Rs. 61.72 Lakhs of 5% of the net profit for that year. Consequently, the Holding Company made an application to the Central Government for requisite approval for waiver of recovery of the excess remuneration, which was rejected. However, the Holding Company has made a representation and is proposing to obtain shareholders' approval by means of a special resolution, in the forthcoming Annual General Meeting, seeking waiver of recovery of the excess remuneration. Since, the Holding Company has incurred loss in the Financial Year 2014-15, the minimum remuneration paid to Mr. Shiv Kumar Jatia as Managing Director in terms of the shareholders' ordinary resolution dated 28th September, 2010, exceeds

ASIAN HOTELS (NORTH) LIMITED

the remuneration payable in terms of Section II of Part II of Schedule V to the Companies Act, 2013, for which the Holding Company proposes to obtain shareholders' approval by means of a special resolution, in the forthcoming Annual General Meeting, seeking waiver of recovery of the excess remuneration of Rs. 20.64 Lakhs; and thereafter, will approach the Central Government for the requisite approvals.

- (c) The Lease rentals under an operating lease have not been recognised as expense on a straight-line basis, since, in the opinion of the management the recognition method adopted which is as per respective contracts, is more representative of the time pattern of the user's benefit.
- (d) As per the requirement of Schedule III of the Act, the Board of Directors of Holding Company have considered the values of all assets of the Group other than fixed assets and non-current investments, and have come to a conclusion that these have a value on realisation in the ordinary course of business which is not less than the value at which they are stated in the consolidated balance sheet.
